

Features and Benefits

Box Scrapers

MR15 & HR25 Series (Retractable)

Features	Benefits
Mechanical or hydraulic shank tube	Retractable mode can be purchased with manual or hydraulic option.
Available in (HR25 Series) or (MR 15 Series).	Can match up to many types of work or tractor capacities.
Heat treated spring steel shanks	Heat-treated for longevity.
Positive Locking System	Shanks are kept in the up or down position with a positive locking system. This keeps the scarifier bar from bouncing in transport, and tight during field use.
Heat treated dimpled on tips	Easy to replace tips are heat treated for toughness.
Rear backfill blade	Rear backfill blade allows for backfilling trenches or foundations.
Quick Hitch or Cat. 1 3-Point Hitch	Fits a wide variety of tractors. Quick hitch capability allows for easy hook-up.
Lower hitch clevises	Allows for easier hook-up of the tractor's lower draft arms.
Roll-formed moldboard: 19" high MR15 21" high HR25	Roll-formed moldboard keeps materials flowing which puts less drag on the Box Scraper, resulting in lower HP requirements and faster working conditions.
Heat-treated, reversible and replaceable cutting edges	Heat-treated for hardness. Reversible so both edges can be used before having to be replaced.
Warranty	One year parts & labor.
