

Tree Liminator

TS55 Series

Features	Benefits
Power Jaw (Hydraulic)	The only moving part, less maintenance, wear and tear. For gripping trees or brush to transport.
Tree Guard	To help keep branches and limbs from reaching operator.
Aggressive Saw Teeth	For quicker sawing of trees.
Skid Steer Hook-Up	Attaches to most late model Skid Steer units with the Quick attach skid plate.
Saw Blade Material	Super hard, long lasting material.
Low Profile swept design	Enables cutting at or below ground level.
Extended reach	Enables cutting under or over fences and overhanging limbs.
Extended saw point	Enables digging out of small root systems and minor dirt excavation.
