

UB25 Stump Bucket

Features	Benefits
Universal Quick Attach Hitch	Fits a wide variety of skid steer loaders and compact track loaders rated up to 100 hp. Makes the tree carrier quick and easy to attach.
1/2" high strength steel side panels	Resists bending forces while breaking roots with the bucket. Saw teeth are resistant to wear.
Side panels are reinforced with continuous welded 3/8" gussets	Adds strength and rigidity to the bucket.
Saw teeth on side panels	Helps cut through roots and breaks them in two.
3/4" x 6" Continuous welded front cutting edge	Adds strength to the bucket and stands up to high wear.
Replaceable pin-on tooth tips	Can be easily replaced as they wear or break.
Three, weld-on cast steel skid steps	Makes entering and exiting the power machine safer.
