

## RC(M)5610 &amp; RC(M)6610 Series 2

Features	Benefits
Surpassed rugged industry standards	All Land Pride Cutters have been designed and tested to meet rigorous voluntary testing procedures according to ISO 4254-13.
Factory assembled	Saves customer set-up time and money.
7 Year gearbox warranty	Shows confidence in gearbox integrity. (Years 6 & 7, parts only.)
Rugged heavy built gearboxes	Capable of handling heavy cutting applications.
Gearbox Seal Protection	Gearbox bottom seal protection for longer bearing life.
2 3/8" Output gearbox shaft	Large output shaft handles shock loads better.
2 Piece shield on wing gearboxes	Driveline grease zerks are easier to access.
Self-leveling hitch	Reduces drawbar wear by keeping hitch level while going through ditches.
Low hitch weight on tractor tongue	Ideal for smaller HP tractors by reducing the amount of weight on the drawbar.
Narrow A-frame hitch	Allows for a tighter turning radius.
Adjustable park jack angle	Park jack can be adjusted to be perpendicular to the ground.
Adjustable driveline hanger	Serves as a support rest for the driveline when the cutter is unhooked from the tractor. Assist operator when attaching driveline to tractor PTO shaft.
Input driveline: Cat. 6 CV or Cat. 5 Conventional	Holds up to shock loads and harsh mowing conditions. Constant velocity (CV) U-joint allows for 80 degree turns without doing damage to the driveline.
Drivelines with slip-clutches: RC56 Series: Cat. 4 standard RC66 Series: Cat. 5 standard	Driveline is sized right for the intended cutting capacity. Slip-clutches will slip under load to minimize twist damage to driveline profiles.
Grease zerks on end caps of driveline cross journals	Intermediate and wing driveline cross journals are easier to grease. All drivelines have access holes for greasing U-joints and inner profiles.
High blade tip speed	Allows clean cutting of material and even distribution.
6" Blade overlap	Eliminates skipping during turns.
High cutting capacity	Can cut brushy areas with saplings up to 4" with 56 Series and 4 1/2" with 66 Series.
12" Deck height	Handles heavy cutting, which reduces balling-up of cut material under the deck.
3/16" Stump jumper backed with a 1" thick mounting bar	Heavy round stump jumper. Can hold up to tough conditions.
Pre-cut chamber	Allows grass and vegetation to stand back up prior to cutting for a more complete cut.
Reinforced leading edge	Front of deck can withstand heavy brush and saplings.
Collapsible leveling rods	Prevents damage and failure to leveling rods.
1" Leveling rods	Large diameter leveling rods provide superior supporting strength over rough terrain.
10 Gauge smooth deck top	Reduces accumulation of debris and is easier and faster to clean.
7 Gauge smooth deck bottom	Heavy deck design holds up to harsh conditions. No bottom obstructions.
Replaceable 1/4" side skirt	Reduces debris piercing possibilities. Can be replaced if damaged.
Beveled skid shoes on wing deck	Reduces gouging the ground when turning.
Hinged wing section	Allows cutter to follow terrain. Ideal for rough ground where hillsides, ditches, and hollows can cause uneven cutting.
1" Solid hinge rods	Gives greater strength to the cutter from front to rear, and in the hinge area itself.
Wing transport lock	Holds transport wing in the folded-up position in case of hydraulic pressure loss.
Enclosed dual leveling rods	Cutter pulls equally on the rear axle while traveling over rough terrain.
5-Bolt hubs	5-Bolt hubs makes the wheel assembly more durable and longer lasting.
Drain holes in wheel rims	Allows water to drain from wheels mounted on folded-up wing. Helps prevent paint deterioration and rusting to the wheel rims.
Spring-cushioned trailing arms	Provides independent suspension, cushions loads on drawbar.
Replaceable wheel spindles	Wheel spindles can be replaced when damaged without replacing the entire axle. Simply remove one bolt to replace damaged spindle.
Bar-tite hitch	Ideal for extreme conditions. Clamps tight to drawbar eliminating drawbar wear.
Wheel options	<b>Laminated tires:</b> Eliminates flats. <b>Air-filled tires:</b> Give better cushion while transporting. <b>Foam-filled tires:</b> Give better cushion while transporting and can't go flat.
LP Performance hitch option	Great for uneven terrain, reduces drawbar wear. Hitch pivots freely up and down and pivots about the tractor drawbar.
Bar-tite hitch option	Ideal for extreme conditions. Clamps tight to drawbar eliminating drawbar wear.
Roadway light kit option	Allows operator to transport on public roads safer when head lights are turned on and/or when flasher lights are turned on.
Deck rings (optional)	Keeps blades from damaging the deck.
