

GB/GBE25 SERIES GRAPPLE BUCKETS

HP REQUIRED
Up to 180 HP

HITCH
Universal Quick-Attach or Euro

MATERIAL HANDLING

Add versatility to your tractor.

The GB25/GBE25 Series heavy-duty Grapple Buckets are ideal for use on your farm, ranch, dairy, construction site or nursery. These American-made, large capacity grapple buckets have the capability to quickly and conveniently turn your tractor loader into a versatile tool for handling large bales or loose and shredded materials such as straw, hay, silage, manure, branches, sticks, wood, and trash.

High-strength, cast tines feature adjustable mounts for variable spacing.

Grapple is attached with quick-release 4-pin mount system.

Wide 84" jaw opening allows operator to grasp large loads.

Dual 3" cylinders provide clamping force to hold the load securely.

Parking stand aids in mounting/disc mounting the grapple from the bucket.
